Use of the Networking Lab is authorized and limited only to those who are a part of the Cybersecurity & Early Networking program and only use it for academic or research purposes. The authorized user must access the computers under supervision and use the provided computers. Personal data shall be minimized as this can be a security risk for not only the person accessing the lab, but to the college's cybersecurity. Those who use the authorized access for personal use will be given a warning and asked to cease any further personal use. Failure to heed the warning a second time will result in loss of access to the networking lab. Anyone suspected of/caught using the network lab for malicious or harmful purposes shall be immediately reported to the campus security for disciplinary action.
